What is this product?

Type: Shares of a Sub-Fund of Lyxor Index Fund, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Fund is an index-tracking UCITS passively managed. The investment objective of the Fund is to track both the upward and the downward evolution of the MSCI ACWI IMI Future Mobility ESG Filtered Net Total Return Index (the "Benchmark Index") denominated in US Dollars (USD), while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the Tracking Error). The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

The Benchmark Index aims to represent the performance of companies that are expected to derive significant revenues from energy storage technologies, autonomous vehicles, shared mobility and new transportation methods and exclude companies which are Environmental, Social and Governance ("ESG") laggards relative to the theme universe, based on an ESG rating. The ESG rating methodology is based on ESG key issues including but not limited to water stress, carbon emissions, labor management or business ethics. The Benchmark Index uses a "Best-in-class" approach, i.e., bottom quartile companies by ESG industry-adjusted rating are excluded from the theme universe. For further information in relation to the general and specific ESG objectives targeted by the Sub-Fund, please refer to the Transparency Code of the Sub-Fund available on <https://www.lyxoretf.com/>.

Limits of the methodology of the Benchmark Index are described in the prospectus of the Fund through risk factors, such as the market risk linked to controversies and the risks linked to ESG methodologies and to ESG score computation.

MSCI's website (www.msci.com) contains more detailed information about the MSCI indexes.

The Benchmark Index is a net total return index. A net total return index calculates the performance of the Benchmark Index constituents on the

basis that any dividends or distributions are included in the Benchmark Index returns after withholding tax retention.

The Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Benchmark Index. To optimize the Benchmark Index replication, the Fund may use a sampling replication strategy. The potential use of this technique is published on Lyxor's website: www.lyxoretf.com.

Updated composition of the Fund holdings is available on www.lyxoretf.com.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the website of the stock exchanges where the Fund is listed.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

Redemption and Dealing: The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the Lyxor Index Fund prospectus.

Distribution policy: As this is a non-distributing share class, investment income is reinvested. The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France.

The Net Asset Value of the Sub-Fund is available on www.amundi.lu.

Depository: Societe Generale Luxembourg.

What are the risks and what could I get in return?

RISK INDICATOR

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Lyxor Index Fund prospectus.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

What happens if Amundi Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Lyxor Index Fund. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

* Secondary Market: because the Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Fund nor the Management Company but to the investor own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs as described in the prospectus.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years is based on our assessment of the risk and reward characteristics and costs of the Sub-Fund.

This product is designed for medium-term investment; you should be prepared to stay invested for at least 5 years. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Orders to redeem shares must be received before 06:30 PM Luxembourg time no later than one (1) Business Day before the Valuation Day. Please refer to the Lyxor Index Fund Prospectus for further details regarding redemptions.
